PROJECT 04: PETROL STATION

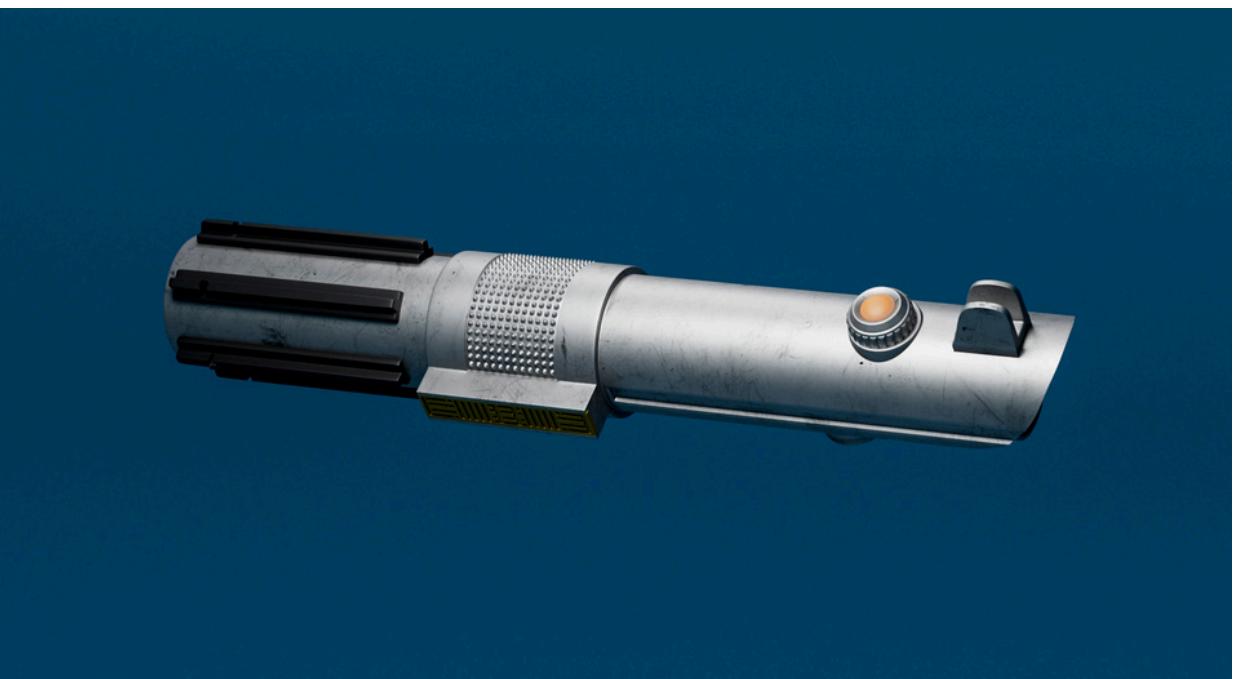

MAYA 2024

"Petrol Station" is a project which I did as part of an assignment in 3D school. For this project, I intentionally set myself more challenging conditions to achieve the best possible result. This approach not only helped me learn much more than required but also made me feel more confident in certain aspects of the project.

Ruthain

Somewhere in the unknown depths of the Universe lies the amazing world of Ruthein. It was created by two all-powerful gods, the Edon.

They populated Ruthein with many races – angels, vampires, elves, werewolves... Each of these races is endowed with unusual abilities that do not exist on Earth: for example, to create visual illusions, fly, or read other people's thoughts.

But none of the inhabitants of Ruthein know the secret of the consciousness codes that control the life of any creature. This mystery is studied by an entire scientific department, in which the winged girl

Erionora works. The dark forces are not asleep either. They kidnap Erionora's colleague and many other people, sucking the life force out of the unfortunate.

Evil seeks to seize power over the consciousness codes in order to gain unusual abilities. The four kingdoms of Ruthein are constantly at war with each other. It seems that the world is facing inevitable destruction. But Edon, who created it, sends a brave earthly vampire named Salvador to help. Will he be able to fulfill the mission assigned to him? What adventures await Salvador on the path of the chosen one?

Где-то в неведомых глубинах Вселенной находится удивительный мир Рутхайн. Его создали сразу два всесильных бога-Эдона. Они населили Рутхайн множеством рас — ангелами, вампирами, эльфами, оборотнями... Каждая из этих рас наделена необычными способностями, каких нет на Земле: например, создавать зрительные иллюзии, летать или читать чужие мысли.

Но никто из обитателей Рутхайна не знает тайны кодов сознания, управляющих жизнью любого существа. Эту загадку изучает целый научный отдел, в котором работает крылатая девушка Эрионора. Тёмные силы тоже не дремлют. Они похищают коллегу Эрионоры и многих других людей, вытягивая из несчастных жизненные силы.

Зло стремится захватить власть над кодами сознания, чтобы обрести необычные способности. Четыре королевства Рутхэйна беспрестанно враждуют между собой. Кажется, мир ждёт неминуемая гибель. Но создавший его Эдон посыпает на помощь отважного земного вампира по имени Сальвадор.

Сумеет ли он выполнить возложенную на него миссию? Какие приключения ждут Сальвадора на пути избранного? Ответы даст новая книга Ксении Котляровой «Благословенный богом» — первая часть захватывающего цикла «Рутхайн».

Salvador was once a powerful vampire and a member of a magical order in his home world. But everything changed when he was thrown into another world a mysterious rift. Here, vampires are not immortal nobles of the night — they are a mutated race. Salvador no longer feels like the creature he once was. He is something else now.

His only companion is a talking shadow named Shadomorph — a being that exists on the edge between reason and instinct. Together, they struggle to survive in a new and dangerous world, filled with anomalies, magic, and creatures that should never have existed. Monsters emerge from rifts, cities fall in seconds, and the truth about the past lies buried in the ashes of lost worlds.

Salvador must uncover the mystery of his new nature, find his place in this strange world, earn the trust of his mentor Leonardo, and discover who he has become — if he's still himself at all.
